

I was shocked to hear that three of Clear Channel stations were advocating hurting bicyclists. I ride a bicycle and have had things thrown at me - it is very very dangerous for all concerned!

It is irresponsible to incite drivers to try to harm/scare bicyclists! What were the DJ's thinking - should they continue to be employed? It does grave and serious harm to their motto "Clear Channel Cares for Our Communities".

Clear Channel Communication should have the license to to broadcast on the offending stations be placed on probation, at the least!
